IP Code	IP66/IP68
light beam @ 25°C	

Product description:

W150 is a modern LED rear lamp with the unique shape of a position light, which makes both lamp recognisable and highly visible on the road. The LED position lamp modules are made of a special compound thanks to which the particular lightning points are not visible and it is only possible to see the shape and is pleasant to the eye glow with a neon-like effect. The lamp can be used in working voltage 12V and 24V. It is EC, EMC approved and it is also rated for IP 66/68. These are probably the best-looking lamps available on the market.

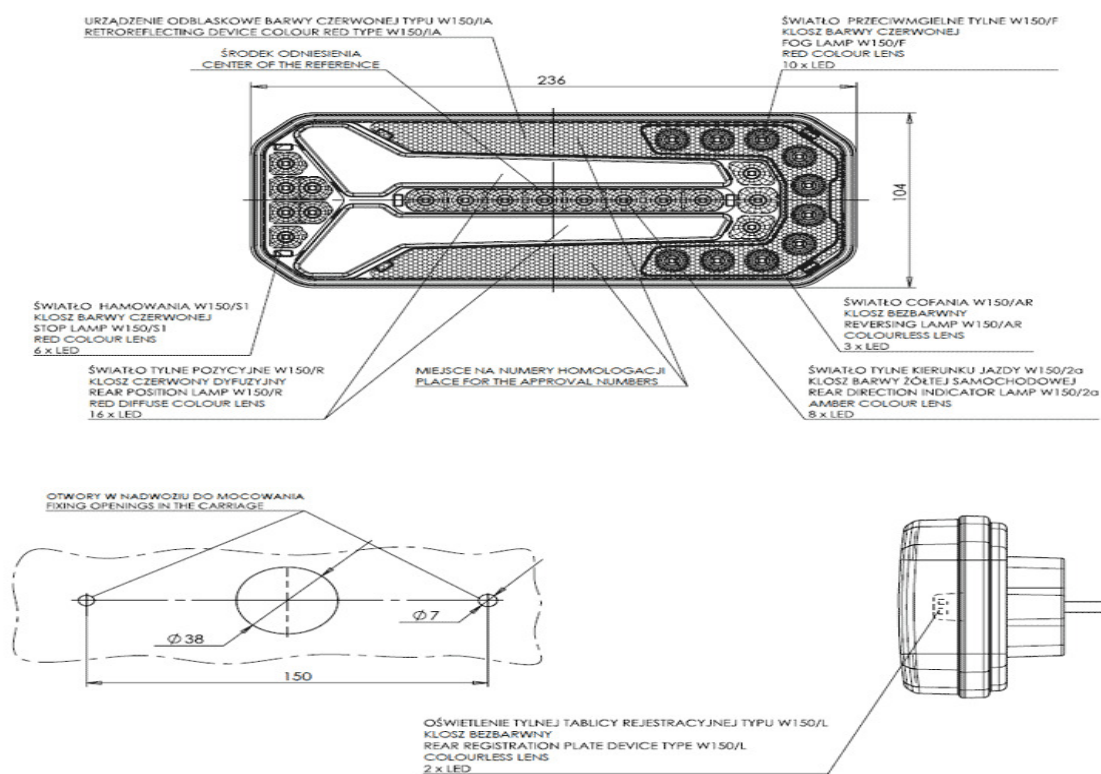

Power consumption at operating voltage 12V:

- position light: 1,4W
- stop light: 1,4W
- direction indicator light: 2,2W
- reversing light: 2,2W
- fog light: 1,3W
- numberplate light: 0,7W

Power consumption at operating voltage 24V:

- position light: 2,9W
- stop light: 2,9W
- direction indicator light: 4,3W
- reversing light: 4,3W
- fog light: 1,3W
- numberplate light: 1,4W

Weight: 0,62kgW
